2. About This Guide

This document is the complete handbook for the **Simply Sourdough** modern website demo: a bakery online-ordering storefront plus a private Admin CRM. It is written so that:

- **Customers** can order breads, buns, and pastries for pickup in Lismore.
- **Staff / owners** can manage products, sample orders, reviews, and Instagram highlights.
- **Stakeholders** can evaluate the demo before connecting live payments or a production database.

The CRM is intentionally **hidden from the public navigation**. Customers only see the shop. Staff open the CRM using the private URL and login credentials in this guide.

3. Business Snapshot & Useful Contacts

Business	Simply Sourdough
Location	Embassy Arcade, 3/97 Keen St, Lismore NSW 2480, Australia
Bake days / hours	Mon, Wed & Fri · 8:00 AM until sold out

Email	farid@simplysourdough.shop
WhatsApp	+61 478 481 989 (https://wa.me/61478481989)
Instagram	https://www.instagram.com/simplysourdough2023/
Facebook	https://www.facebook.com/profile.php?id=61551937266868&mibextid;=LQQJ4d
Google reviews	https://share.google/n2bqUz1UaKPGnJzbU
Currency	AUD (Australian dollars)

4. Customer Guide — Using the Website

Open the customer site in any modern browser (phone, tablet, or desktop):

Customer website

<https://simply-sourdough-kappa.vercel.app>

4.1 Home page

The home page introduces the bakery with a warm Nordic editorial design and the official **Simply Sourdough Organic (FS)** logo.

What customers see

- **Hero** — brand story, “Order for pickup” and “Meet the baker” buttons, bake-day stats.
- **Marquee strip** — highlights (2-day ferment, stone-milled grains, bake days, etc.).
- **Fresh from the oven** — featured products from the catalogue (card with photo, category, price).
- **Nordic soul, Lismore heart** — short bakery story and link to the full About page.
- **Google reviews** — featured customer reviews managed in the CRM.
- **Instagram feed** — highlighted posts linking to @simplysourdough2023.
- **Call-to-action** — browse the shop or WhatsApp the bakery.

Header navigation

- **Home, Shop, Story, Contact**
- **Cart icon** (shows item count when the cart is not empty)
- On mobile: hamburger menu with the same links
- There is **no CRM button** for customers — by design.

4.2 Shop & product detail

Path: Shop (or Home → “Order for pickup” / “Browse the shop”)

Shop catalogue

- Browse all products preloaded from the Simply Sourdough range (breads, buns, pastry, subscription).
- Each card shows image, category, short description, and price (or “From” price if options exist).
- Tap / click a product to open its detail page.

Product detail page

- Large product photo (switch thumbnails if multiple images).
- Price, description, ingredients, and allergen notes when available.
- **Options** for products with variants (e.g. 1 bun vs 6-pack) — select an option before adding.
- Click **Add to cart** — confirmation appears briefly; cart badge updates in the header.
- Sold-out products cannot be added.

4.3 Cart & placing a pickup order

Path: Header cart icon → /cart

- Review each line item: photo, name, variant, unit price.
- Use + / – to change quantity, or trash icon to remove a line.
- **Clear cart** removes everything.
- Summary shows **subtotal in AUD**.
- Click **Place pickup order** for the demo checkout flow (payment on collection — demo mode).

- Pickup location shown: Embassy Arcade, Lismore.

Important for customers

Cart is saved in the browser (localStorage) so it survives page refreshes on the same device.

This demo does not process card payments yet — staff confirm pickup orders offline / via WhatsApp if needed.

Bake days: Mon, Wed & Fri from 8am — order early; popular items sell out.

4.4 About & Contact

About (/about)

- Full bakery story (Nordic training, Lismore community).
- Values: slow fermentation, stone-milled grains, no artificial preservatives.
- Visit details: address, hours, phone, email.

Contact (/contact)

- Address (opens maps), phone, email, Instagram.
- **WhatsApp us** for the fastest reply.
- Message form (demo) — name, email, message fields.
- Footer also links Instagram and Facebook.

5. Staff CRM Guide — End-to-End

The Admin CRM is a private control panel for bakery staff. It is **not linked** from the public menu. Only people with the URL and credentials can manage content that appears on the website.

5.1 Sign in & security

CRM Credentials (keep private)

CRM URL: <https://simply-sourdough-kappa.vercel.app/admin>

Username: admin

Password: SimplySourdough2026!

How to sign in

- Open the CRM URL in a browser (bookmark it for staff devices).
- You will see the **Admin CRM** login screen with the bakery logo.
- Enter username and password → click **Sign in**.
- Wrong credentials show an error; correct credentials open the dashboard.
- Use **Show / Hide** next to the password field if needed.

Security notes

- Login is stored in the browser session only (sessionStorage).
- Closing the tab / browser ends the session; you must sign in again.
- Click **Sign out** (sidebar or top bar) when finished on a shared computer.
- Never post the password in customer chats, social media, or the public website.
- For production, replace demo credentials and add server-side authentication.

5.2 Dashboard

Path: /admin

The dashboard is the home screen after login. It gives a live snapshot of the shop.

Widget	What it shows	Action
Products	Total products + how many are featured	Click card → Products page
Orders	Total sample orders + pending count	Click card → Orders page
Reviews	Total reviews + highlighted count	Click card → Reviews page
Instagram	Number of feed posts in CRM	Click card → Instagram page
Demo order value	Sum of non-cancelled sample orders (AUD)	Read-only summary
Product catalogue list	Quick list of all products & prices	Button → Manage products

Also available: **View storefront** / **Storefront** buttons open the public site in the same browser so you can check how changes look to customers.

5.3 Products (create / edit / delete)

Path: /admin/products

This is the main catalogue manager. Products here power the Shop and featured section on Home.

View the catalogue

- Table lists every product with thumbnail, name, category, price, stock status.
- Star icon = featured (appears in “Fresh from the oven” on the homepage).
- Slug link opens the live product page (e.g. /shop/the-simply-sourdough).

Add a product

- Click **Add product**.
- Fill in fields: Name, Slug (optional — auto-generated from name if empty), Price (AUD), Category, Image URL, Short description, Description, Ingredients, Allergens.
- Toggles: **Featured** (homepage), **In stock** (can be purchased).
- Click **Save product**.
- New product appears at the top of the list and on the storefront after refresh.

Edit a product

- Click the pencil icon on a row.
- Update any fields → **Save product**.
- Cancel closes the form without saving.

Delete a product

- Click the trash icon → confirm in the browser dialog.
- Product is removed from the CRM store and no longer sold online.

Categories available

- Sourdough Bread · buns · pastry · subscription · other

Demo storage note

Locally (on a developer machine): data can be written to data/crm-store.json.

On Vercel (live demo): changes use in-memory storage and may reset after cold starts / redeploys.

For a permanent production catalogue, connect a database (e.g. Postgres / Supabase) later.

5.4 Orders

Path: /admin/orders

Orders page shows sample CRM orders for demonstration and staff training. Statuses help model a real bakery pickup workflow.

Status	Meaning (workflow)
pending	New order — not yet confirmed by staff
confirmed	Accepted; baking / prep in progress
ready	Ready for customer pickup at Embassy Arcade
completed	Picked up / finished
cancelled	Cancelled — excluded from revenue total on dashboard

Columns explained

- **Order** — ID and date/time created.
- **Customer** — name and email (phone when provided).
- **Items** — quantity × product lines; optional staff notes (e.g. “Pickup Friday morning”).
- **Total** — order total in AUD.
- **Status** — coloured badge for quick scanning.

Live checkout → CRM order creation can be wired later when payments go live. For now, treat this list as a realistic demo of daily order handling.

5.5 Reviews

Path: /admin/reviews

Manage which Google-style customer reviews appear in the homepage “Loved by Lismore” section.

- Each review shows author, date, star rating, and full text.
- Click **Featured** / **Hidden** to toggle homepage visibility.
- Featured reviews appear on the storefront; hidden ones stay in CRM only.
- Use **Open Google** to visit the live Google reviews share link.

Tip: Keep 3–5 strong featured reviews for a clean homepage. Hide weaker or outdated ones without deleting them.

5.6 Instagram highlights

Path: /admin/instagram

Curate the homepage Instagram gallery for @simplysourdough2023.

- Grid shows each post thumbnail, caption, and permalink.
- Click **View post** to open the real Instagram post in a new tab.
- Toggle **On homepage** / **Hidden** to control homepage visibility.
- Use **Open Instagram** to visit the full profile.

Thumbnails in the demo use stable bakery product images (Instagram CDN links expire). Permalinks point to real profile posts.

5.7 Sign out & navigation chrome

- **Sidebar (desktop):** Dashboard, Products, Orders, Reviews, Instagram, View storefront, Sign out.
- **Top bar (mobile):** horizontal chips for each CRM page + Storefront + Sign out.

- Always Sign out on shared devices.

6. End-to-End Scenarios

Scenario A — Customer orders cardamom buns for Friday

- Customer opens the website → Shop → Cardamom Buns.
- Selects “6 cardamom buns” option → Add to cart.
- Opens cart → confirms quantity → Place pickup order.
- Optionally messages bakery on WhatsApp to confirm pickup time.
- Picks up Mon/Wed/Fri from 8am at Embassy Arcade.

Scenario B — Staff feature a new pastry on the homepage

- Staff open /admin → sign in with credentials from Section 5.1.
- Go to Products → Add product (or Edit existing).
- Set image URL, price, descriptions; tick **Featured** and **In stock** → Save.
- Open Storefront in a new tab → Home → confirm the product appears under “Fresh from the oven”.
- If needed, un-feature older items so homepage stays focused.

Scenario C — Refresh homepage social proof

- CRM → Reviews: mark best recent reviews Featured; hide older ones.
- CRM → Instagram: enable up to 6 strong posts for the gallery.
- View storefront → scroll to reviews and Instagram sections to verify.

Scenario D — Demo presentation to a client

- Start on customer URL (no CRM visible in nav).
- Walk through Home → Shop → Product → Cart.
- Show Contact + WhatsApp / Instagram / Facebook links.
- Open private CRM URL on presenter device only → login → Dashboard overview.
- Demonstrate product edit live, then show storefront update.
- Sign out before handing device over.

7. Troubleshooting & FAQ

Issue	What to try
Cannot log into CRM	Check URL ends with /admin. Username is exactly admin. Password is case-sensitive: SimplySourdough2026!
CRM button missing on website	Expected. CRM is private. Use the direct URL from this guide.
Cart is empty after reopening phone	Cart is per browser/device. Same browser + no private mode usually keeps it.
Product change not on website	Hard-refresh the storefront (Ctrl/Cmd+R). On Vercel demo, cold starts may reset memory data.
Images not loading	Product images load from simplysourdough.shop CDN. Check internet / original site availability.
Order not in CRM after “Place order”	Demo checkout is front-end only. Orders page shows sample data until payments are connected.

Issue	What to try
Forgot password	See Section 5.1 of this PDF, or a developer can reset values in <code>src/lib/admin-auth.ts</code>

8. Glossary & Notes

Term	Meaning
Storefront	Public customer website (shop, cart, about, contact)
CRM	Admin panel to manage products, orders, reviews, Instagram
Featured product	Shown in homepage “Fresh from the oven” grid
Variant	Product option with its own price (e.g. 1 bun / 6 pack)
Slug	URL-friendly product name, e.g. cardamom-buns
Pickup order	Customer collects from bakery (no delivery in demo)
SSG / Static	Many pages are pre-built for fast loading on Vercel

Developer reference (optional)

Project folder: `~/simply-sourdough`

Stack: Next.js 16 · React 19 · TypeScript · Tailwind CSS 4

CRM credentials file: `src/lib/admin-auth.ts`

Seed catalogue: `src/data/seed.ts`

Local run: `npm install && npm run dev` → `http://localhost:3000`

Deploy: push to GitHub main → Vercel auto-deploys
